

SINGLE TRAK[®]

LADDER SYSTEM

Cotterman's Single Trak, steel mounted shelf ladder is designed to provide easy

access to shelves in narrow aisles and cramped storage areas. These ladders have a smooth rolling upper track fixture and wheels on the floor that allow easy movement of the ladder along the entire length of the track. The upper rolling trolley fixture is mounted on straight track at the front shelf edge. The rugged all-welded steel construction features 5" deep by 14" wide solid steps with abrasive treads.

Quick Access... Easy to use... Easy to store

When in use the ladder is positioned at an 80° climbing angle. The standard bottom wheel brake prevents movement during use. An exclusive design permits storage of the ladder in a tight vertical position against the shelves when not in use and allows easy passage of persons or equipment in the aisle. Cotterman's Single Trak ladder has been a popular favorite for over 70 years. Cotterman's Single Trak Ladder has been proven to save time in accessing vertical storage.

Single Trak Series 7180 is so simple to use and store, it is fast becoming one of the most popular ladders for access to vertical shelf storage.

When not in use a unique design feature allows the ladder to store tight against the shelf for more aisle space.

The Single Trak ladder pulls out to an 80 degree climbing angle.

For fast, easy access to vertical shelving.

Model No.	No. of Steps	Highest Standing Height	Track Height Range	Price
7180-5	5	50"	over 85" up to 95"	
7180-6	6	60"	over 95" up to 105"	
7180-7	7	70"	over 105" up to 115"	
7180-8	8	80"	over 115" up to 125"	
7180-9	9	90"	over 125" up to 135"	
7180-10	10	100"	over 135" up to 145"	
7180-11	11	110"	over 145" up to 155"	

Track and Mounting Hardware	Price Each
#78 Black Oxide track in 10' sections	
SD5 Splicing dowel necessary for connection of track section	
L101 Right end stop bracket for horizontal shelf mounting	
L102 Left end stop bracket for horizontal shelf mounting	
L103 Center bracket for horizontal shelf mounting	
L151 Right end stop bracket for vertical shelf mounting	
L152 Left end stop bracket for vertical shelf mounting	
L153 Center bracket for vertical upright mounting	

The upper trolley fixture of the Single Trak steel ladder allows a smooth rolling motion the length of the track.

The bottom wheel brake prevents movement while in use.

To Order Series 7180 Ladders and Track:

1. From the chart above select the proper model based on top step height required for your application. Keep in mind the maximum working height is approximately 5-6 feet above the top step height shown.
2. Based on the model selected, specify the required track height from the floor to the top of the track (in 1" incr.). Stay within ranges shown.
3. Choose L10 or L15 brackets (2 ends per track run and 3' maximum center spacing) for attaching the #78 track to either horizontal shelf surfaces or vertical shelf supports.

Colors: Your choice of gray, black, beige, dark brown and yellow powder coat finish. Ladder hardware and track are black.
