Improving Lives Through Mobility® since 1968

DEX Pro™

Give your employees an edge

In terms of injuries and workman's compensation claims, manual materials handling represents the single largest source of claims and costs in the US. Workman's comp, medical bills, recovery time and lost work time all decrease when ergonomic equipment is used effectively.

The Dex Pro offers a unique solution for workers who spend most of the day on their feet. The durable standing platform allows for quick transportation while saving steps and providing relief from standing on concrete floors.

BENEFITS:

- 750 lb load capacity
- 24-volt battery system provides extended run time to last all day
- Automatic braking system
- Battery gauge, hour meter and smart diagnostics on handle for quick troubleshooting
- Platform deck dimensions: 40" x 22"
- Easy access to service components
- Optional safety strobe light, horn and reverse alert horn

"The Dex Pro helps me cover more ground in our large facility without feeling fatigued. It allows me to easily and safely move materials in and out of areas that other industrial carts can't go. They are in use for 16-20 hours/day."

MEET THE FAMILY

With nearly 50 years of mobility expertise, Amigo is a family-owned business with a passion for exceptional customer service.

Our products provide fewer moving parts, lower service costs and innovative safety features.

Since Amigo Founder Al Thieme invented the first motorized cart in 1968, our products have expanded to include motorized shopping carts, electric convenience vehicles, bariatric hospital chairs and material handling equipment.
